SUMMARY

I am a tech-savvy person with experience in **Linux** and in **Windows XP to Windows 11**, with a strong foundation in technology, I have been invested in Tech in the past **9 Years.**
My journey includes studying while learning, building personal projects, working in a call center, I Would Love to do **remote work**—particularly in tech-related tasks, I have a typing speed of **60+WPM** with **99.3 Accuracy** ensuring high-quality.
I am and was a top student.
My ultimate goal is to be a Senior Dev, To start I am trying to find remote data entry or similar roles where I can contribute my skills while earning and gaining experience in a flexible, low-interaction environment.
I'm learning, improving and exploring opportunities that match my abilities.
